Imidjeologia

A musical collaboration
between a human creator and AI

A creator-led music project
in Russian

How the music takes shape

Creative foundation

Personal experience, poetry and musical influences set the project's direction.

Language model

Helps develop lyrics and describe the intended musical style.

Music system

A generative system creates music and synthetic vocal parts.

Artistic choices

The creator develops the idea, selects versions and decides how to release the work.

Debut: Pass It On (Передавай)

6

Six songs about moments you want to keep going

A meeting changes the evening.

A shared table brings people closer.

A first attempt becomes a reason to try again.

The debut album is in preparation.

The release date will be announced separately.

The images on the following pages belong to individual songs. The album cover is still being chosen.

Album songs

01

One More Block

A walk that both people choose to extend.

02

Leave It As It Is

The first take holds their shared laughter.

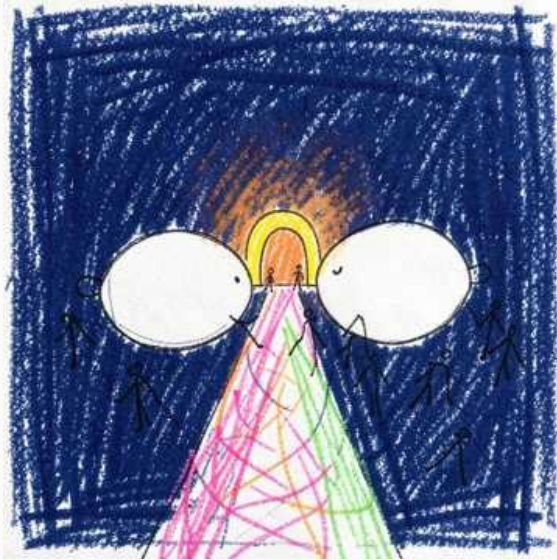

03

Pass It On

A shared table begins with a simple invitation.

Album songs. Continued

04

Closer

A conversation becomes
a reason to come closer.

05

Windows Down, Music Up

Small details make the trip
to the lake memorable.

06

It Worked

A first step into a dance
you want to repeat.

Contact Imidjeologia

Imidjeologia brings the creator's experience and original poetry together with the possibilities of AI. A language model helps shape words and style briefs. A generative music system creates the music and synthetic vocals. The creator determines the artistic direction.
